Geometry 1-2 Betweenness of Points

Name: _____   Time› Start: _____   Finish: _____   Total Time = _____

_____ |1.| If C is between X and Y with CX = 6 and CY = 20, what is XY?

_____ 2.   If C is between X and Y with YX = 16 and CY = 4, what is CX?

_____ 3.   If C is between X and Y with YC = 6 and XY = 10, what is XC?

_____ 4.   If D is between A and B with AD = 2 and BD = 4, what is AB?

_____ 5.   If D is between A and B with AB = 24 and AD = 1.5, what is BD?

_____ |6.| If D is between A and B with AD = 2x, BD = 3x, and AB = 20, what is x?

_____ 7.   If D is between A and B with AD = 4x, BD = 5x, and AB = 18, what is x?

_____ 8.   If D is between A and B with AD = 5x, BD = 10, and AB = 30, what is x?

_____ |9.| If D is between A and B with AD = 2x, BD = 4, and AB = 24, what is AD?

_____ |10.| If T is between N and D with NT = 2n +1, TD = 8, and ND = 19, what is NT?

_____ |11.| If D is between A and B with AD = 3n − 1 , BD = 2n + 4,
                   and AB = 33, what is BD?

_____ |12.| If D is between A and B with AD = 5n , BD = 2n − 10,
                   and AB = 39, what is BD?

_____ |13.| If T is between A and V with AT = 2n + 1 , TV = 3n + 5,
                   and AV = 6n − 8, what is AT?

_____ |14.| If D is between A and B with AD = 4n , BD = 5n + 2,
                   and AB = 11n - 8, what is AD?

(OVER)

In 15-19, the answers will be expressions like 2n + 4, not something like 10 cm. Draw a picture of the line segment to help you get the answer.
_____ |15.| If C is between X and Y with $CX = 4n - 4$ and $CY = n + 10$, what is XY?

_____ |16.| If C is between X and Y with $CY = 4n$ and $XC = 2n + 1$, what is XY?

_____ |17.| If D is between A and B with $AB = 4n + 10$ and $AD = n - 2$, what is BD?

_____ |18.| If V is between R and Y with $RY = 30$ and $VY = n + 10$, what is RV?

_____ |19.| If V is between R and Y with $RY = 20n + 4$ and $RV = 5n + 2$, what is VY?

In the figure above, determine if the two given line segments are congruent (same measurement).
Write "congruent" or "not congruent" in the blank. No abbreviations, for I want you to get used to writing the word congruent.

_____ 20. $\overline{AB}$ and $\overline{CF}$

_____ 21. $\overline{AC}$ and $\overline{DE}$

_____ 22. $\overline{AD}$ and $\overline{EF}$

_____ 23. $\overline{FB}$ and $\overline{EF}$

_____ 24. $\overline{AE}$ and $\overline{CD}$

_____ 25. $\overline{AC}$ and $\overline{AD}$
