$$\frac{180}{4} = 45^\circ$$

$$\frac{360}{8} = 45^\circ$$

Find n . $6n + 4n + 20 = 180$

$$\begin{array}{r} 10n + 20 = 180 \\ - 20 \quad - 20 \\ \hline \end{array}$$

$$10n = 160$$

$$n = 16$$
